

Tomasz Wojda

kick & heavy synth

BOOTH

- DJ table: 110 cm high, top min. 120 × 80 cm, stable.
- Power 230 V — two free sockets in the booth.
- Booth monitor in front of the DJ.
- No blinding front spots. Warm light on hands and mixer.

SETUP A — LAPTOP

- MacBook Pro + Traktor controller (Native Instruments).
- Controller model confirmed before the event.
- Space on the 110 cm table for laptop and controller.
- To the house mixer: 2× RCA or 2× TS / combo.

SETUP B — CDJ

- I play on any CDJs + Pioneer mixer (DJM / XZ / 4 ch).
- Venue provides: 2× CDJ or XDJ and a Pioneer DJM.
- Mixer to FOH: stereo XLR.

HOSPITALITY

Rider — hospitality and travel

IN THE BOOTH

- Bananas.
- Still water.
- Cold Coca-Cola.
- A meal if possible (before the set or right after).

TRAVEL

- Taxi to the venue and back, or a private driver.
- Based in Warsaw — travel from/to Warsaw.
- If a same-day return is not realistic: overnight stay.

TIMING

- Set: 60-120 min, to confirm.
- Load-in and soundcheck: at least 45 min before start.

GUESTS, REC, PARKING

- Plus one on the guest list.
- Parking at the venue if arriving by car.
- Set recording (USB / FOH) only if agreed in advance.

NOTES

- This rider is a baseline — we adjust to the room.
